# TOLLS BILL TO PRESIDENT

HOUSE HAS AGREED TO SENATE AMENDMENT WITHOUT GOING TO COMMITTEE

## PASSAGE BY SENATE

Final Enactment Is Effected By Vote of Fifty to Thirty-five, Ending Long Fight

By Associated Press

Washington, June 12—Without the formality of a conference the House today by a vote of 216 to 71 accepted the Senate amendments to the repeal of the Panama tolls exemption and sent the bill to President Wilson An attempt led by Representative Moss, Republican, of West Virginia to substitute for the Senate amendment an affirmative declaration of the rights of the United States in favor of its own ships was defeated 174 to 108

The Panama bill returned to the House today for action for the Norris Simmons compromise amendment before going to President Wilson for signature

Chairman Adams of the commerce committee, in charge of the bill, at once moved that the House concur in the amendment instead of sending it to conference

"The Senate amendment," he said, "should be acceptable to all advocates of uniform tolls It is exceedingly appropriate that the statement contained in the amendment should be made and promulgated in connection with the repeal bill itself, it is nothing but the truth and substantially the same declaration has been made by us on the floor of the House and elsewhere many times

**Underwood In Opposition**

Representative Adamson's motion was not objected to and debate was limited by agreement to an hour and a half Representative Murdock declared he believed the president would veto the bill as amended Majority Leader Underwood, while he declared he would not oppose the amendment said that it was 'negative and ineffective" He added that the reservation would have no effect in future negotiations

'Our act in surrendering our rights will be the point that is weighed in the future and not an accompanying declaration of what we mean when we perform the act,' he said and added that Congress should never have legislated directly on the question but should have submitted the entire controversy to arbitration

The vote in the Senate yesterday on final passage was 50 to 35.

**History of Tolls Measure.**

The question of making the Panama Canal free to American vessels was brought to the front when the House on May 23, 1912 incorporated in the act providing for the establishment of civil government in the canal zone a provision authorizing the president to charge tolls to vessels using the canal, with a proviso exempting American coastwise vessels from such charges President Taft, in a message to Congress had urged the exemption The bill had been reported to the House providing tolls for all vessels but the exemption provision was adopted as an amendment This amendment was in the bill as it went to the Senate

Before the bill passed the Senate Great Britain on July 11 1912 filed a formal protest against the proposed exemption The note transmitted to the state department contended

"The British government thinks that to allow American vessels to pass through the canal without the payment of tolls would be to violate the Hay Pauncefote treaty whether the tolls are not collected or whether if collected they are refunded A to coastwise trade the British government thinks it would be difficult to frame a provision which would not do injustice to their interests

**Treaty Provisions**

The Hay Pauncefote treaty superseded the Clayton Bulwer treaty under which Great Britain and the United States were jointly to build the canal The Hay Pauncefote agreement after providing rules for the regulation of the canal based on the rules governing Suez canal traffic set forth

'The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules on terms of entire equality so that there shall be no discrimination against any such nation or its citizens or subjects in respect of the conditions or charges of traffic or otherwise Such conditions or charges of traffic shall be just and equitable

The British note of protest started a lengthy diplomatic correspondence on the subject Great Britain throughout claimed that the United States could not under the terms of the treaty make toll exemption of any vessels whether its own or of other nations Secretary Knox who conducted the correspondence for the United States in several lengthy notes contended that the exemption of American coastwise shipping was in no way a discrimination against other traffic using the canal He as

# FEDERAL RESERVE BOARD COMPLETED

PRESIDENT EXPECTED TO SEND NAMES OF MEMBERS TO SENATE MONDAY

## HEADED BY CHICAGO LAWYER

Thomas B. Jones, Personal Friend of Governor, Will Probably Be Governor of Board

By Associated Press.

Washington, June 12—Thomas B Jones, a Chicago lawyer, former member of the Princeton University trustees, and a personal friend of President Wilson, has practically been selected for governor of the federal reserve board It was unofficially announced today that his nomination would go to the Senate Monday With the nomination of Mr Jones the names of Paul M Warburg of New York, W P G Harding of Birmingham, A C Miller of San Francisco and E C Simmons of St Louis, to be members of the board, are expected to go to the Senate

Secretary McAdoo and Controller Williams of the currency bureau will be ex-officio members It was definitely stated at the White House that the president formally would announce the personnel of the board Monday

**Money To Move Crops**

With the appointment and organization of the board, the work of actually organizing the country's new banking and currency system will get under way and officials hope to have it in operation for the crop moving period in the autumn Treasury department officials were still of the opinion today that it will be possible to have the twelve federal reserve banks in operation by August 1, although they say that the demand for money to move crops has not been such as would suggest any great strain to be relieved by the reserve banks Oklahoma and Kansas are now harvesting their wheat Indications are that it will be a bumper crop, but the banks in the wheat section are not hard pressed for money and this condition is attributed by Secretary McAdoo to the passage of the federal reserve act, which will make it possible to rediscount commercial paper

The organization committee has not made any call on members banks as yet for the initial one sixth of their subscription to the capital stock of the reserve bank to which they wish to belong Such a call hardly will be made until after the federal reserve board is confirmed by the Senate and takes up its work in Washington

London, June 12— Let them die" That's the cry of a big majority of the people who are opposed to the militant suffragettes They think the only cure fo rthe outrages which have stirred all England is to let the suffragettes starve themselves in jail until they die if they so choose to continue their hunger strikes The recent burnings and the attempts to see the king in Buckingham palace during his birthday celebration have incensed the populace Many who favor giving women the vote are opposed to the militant methods The present outbreak may gradually die out, like other recent outrages, but the militants say they will be heard from until they win even if they have to die

# GOVERNMENT PIPE LINE MAY NOT GO THROUGH TEXAS PORT

Louisiana Points Are Expected To Make Strong Fight To Bring It Their Way

By Associated Press.

Austin, Texas, June 12—Doubts as to whether the proposed government pipe line from Oklahoma to the Gulf will run through Texas have been raised here These doubts are based on the fact that nine Texas ports want the pipe line terminal, while Louisiana has entered the competition with her forces concentrated on one port, Baton Rouge on the Mississippi River The spirit which helped win for Texas a regional reserve bank, namely 'Texas First' regardless of rivalry between cities, is said not to have been strongly manifested in the oil pipe line hearings In fact it is said numerous advocates of individual ports forgot to mention Texas at all, taking it for granted that any pipe line from Oklahoma necessarily had to pass into the Gulf through Texas The Louisiana business men secured records of much of the Texas testimony and were read for the government investigators with data showing that Baton Rouge was not only on deep water but was close to the great mid continent oil fields

# GREECE SHOWING TEETH TO TURKEY

ISSUES WARNING THAT IS LITTLE SHORT OF DECLARATION OF WAR

## PREMIER IN FIRM ATTITUDE

Says Hostilities Will Follow If Persecution of Greek Citizens In Turkey Does Not Stop

**MASSACRE OF GREEKS FEARED AT NITILENE.**

London, June 12—An official dispatch from Nitilene, an island off the coast of Asia Minor, says that Turkish regulars with machine guns and a force of bashi basouks today attacked the town of Aizalik on the coast of the mainland As the town is inhabited by 25,000 Greeks a massacre is feared Messages from Athens today state that one class of the Greek naval reserve has been called out ostensibly to participate in fleet maneuvres. Greek ship owners have telegraphed instructions to the comanders of their ships in the Black Sea to return immediately to Greek wagers A conference between the Russian and Roumajan ministers has been planned at Bucharest next week to endeavor to prevent war

By Associated Press

Athens, Greece June 12—A warning to Turkey which fell little short of a formal declaration of hostilities was uttered today by Premier N Venizelos of Greece in the Chamber of Deputies He was speaking of the treatment of Greek subjects in Turkey The Greek government today sent a vigorous note to Turkey demanding the cessation of the persecution of the Greeks in Turkey and the repair of the damage caused them and their interests

The premier's attitude showed that the tension between Greece and Turkey was near the breaking point and that the danger of war was imminent M Venezelos, who obviously found difficulty in restraining his language when he spoke of the way in which the Turks had treated his fellow countrymen said

**Premier's Speech.**

I do not wish to allow to escape me words which cannot be recalled, but I should fail in my duty if I did not inform the Chamber of Deputies that the situation has become grave, even very grave If a stop is not put to these conditions, the Hellenic government will be forced not to content itself with joining in the lamentations of unhappy refugees"

Prolonged cheering greeted the statement of the premier who added that thousands of Greek refugees had already reached the homeland from Turkey while thousands more were only awaiting transportation facilities in order to escape "from their persecutors" Such a situation he concluded, could not be borne much longer Public opinion in the Greek capital is greatly excited and demands are made that the government take immediate action in the matter.

# FEDERATED CLUBS WILL CONSIDER WOMENS' SUFFRAGE

Announcement to This Effect by President Today Greeted With Much Applause

'The chair wishes to answer some seventeen questions which have been received with regard to the subject of women's suffrage' announced Mrs Pennybacker the purport of these questions is are we going to smother the suffrage question?

The house became silent and the speaker paused dramatically Then she resumed with an explosive 'no' which she amplified

It is not the intention to smother this great question" she stated that the subject probably would come up this afternoon at the education conference

'Special privilege to none, equal rights for all is the slogan of this convention," declared the chairman, amid further applause. Then she continued.

"Now let's do something less exciting, we have the report on civil service reform."

# FIRST STEP IS ACHIEVED

MEDIATORS AND DELEGATES READY TO APPROVE PROVISIONAL PROCEDURE

## DEADLOCK IS BROKEN

Huerta Will Not Name Successors. Carranza Is Not To Have Formal Representation

By Associated Press

Niagara Falls, June 12—The mediators will not officially admit to the conference here the representatives General Carranza has announced he will send to Niagara Falls The South American diplomats said they could not recede from their original condition demanding an armistice

Mediation today had achieved its first important step After nearly three weeks of parleying the mediators and the American and Huerta delegates were ready formally to approve in full conference the method by which the executive power in Mexico City shall be transferred from the Huerta administration to a new provisional government, the constitutional form of succession permitting General Huerta to appoint as minister of foreign affairs the man chosen here for the provisional presidency, having been abandoned

**Mexicans Finally Yield**

Instead, there will be an abrupt transfer of authority to the new provisional president There was a deadlock for several days over the manner of transition from Huerta, but the Mexicans finally yielded on the ground that technicalities should not jeopardize the prospects for peace

The work of the conference now centered on the second point in the plan for the pacification of Mexico which deals with the personnel of the new government It is not at all improbable that the American delegate will ask the mediators to receive the constitutionalist envoys or that they themselves will endeavor to obtain information from the new representatives

**To Hear Carranza Agents.**

The mediators have said they will receive representatives of General Carranza to hear their arguments but that they can not give them formal representation in the conference except on their original terms of an armistice and a willingness to discuss internal as well as international phases of the Mexican question.

The coming of constitutionalists delegates at a time when the proceedings have reached the critical stage where personnel is being discussed will not be unwelcome to the Americans and it is suggested in some quarters even the Huerta delegates, anxious for the end of the civil strife, will be glad to have the negotiations hurried by having all parties to the Mexican controversy represented.

### PROBABLE PERSONNEL OF CARRANZA'S DELEGATION

By Associated Press

Washington, June 12—General Carranza's reply to the Mexican mediators announcing his intention of sending three delegates to the Niagara conference was received here early today and forwarded to Niagara Falls No announcement of the contents of Carranza's reply was made here but it was understood the note is silent on the subject of an armistice and does not give the names of the men who will be sent to represent the constitutionalists

It is known however that Rafael Zubaran minister of the interior in the Carranza cabinet and chief of the agency here, will not be among the delegates as Carranza considers Zubaran is needed to look after affairs here

Two of the delegates are almost certain to be Luis Cabrera a prominent figure in the constitutionalist movement and Jose Vasconcelos a young lawyer The name of the third man was not learned here

President Wilson today authorized the announcement that he considers the progress of mediation at Niagara Falls as 'very encouraging' It was said unofficially that he expects mediation to have a successful outcome within the next few days

### FUNSTON WANTS TO MOVE TROOPS FURTHER INLAND

By Associated Press

Washington June 12—Brigadier General Funston's reported recommendation for moving the American line further inland for Vera Cruz to better protect the city and the water and food supplies are being considered anew by officials here who are confronted however with the insistence of the state department that the present position be maintained during the Niagara mediation conference No decision has been reached The possibility of fighting between federals and constitutionalists adds to the desirability from military viewpoint of extending line somewhat.

## WE'VE THE GLOOMS ON THE FUN FOR FAIR THIS TIME

Oh, to be sure we were in the dumps nearly all Spring, when the rain was pouring down every day and our trade was unable to buy clothing because work was slack, the prospects for harvesting the wheat crop that we had raised looked "slim," and things in general headed toward the "bow-wows."

To make it still harder on our business the excessive rains and floods in the East affected the special deliveries of the big merchant tailor houses and we have been compelled to take more clothing than usual in order to keep our contrrcts with them.

But prospects are brighter now. The wheat harvest is on and the crop is a bumper. The other later crops look promising also.

## *Good Times are Assured*

Now in order to sell our stock down to normal size and get the money back in the strong box where we can have it ready to pay cash for the clothing we receive from the tailors.

## We Begin a Sale To-Morrow to Last One Week Only

# $12.50 AND $15.00

This is a real bargain event because the clothing we have received this Spring is better than we have ever gotten before. The tailor's price on the entire stock averages about $35.00 per suit. Many suits are priced as high as $48.50 per suit.

*If you appreciate fine hand tailored Clothes don't miss this opportunity. They cost you less than hand-me-downs.*

I was just comparing notes the other day to see how much grape juice I was selling at the present time as compared with what was sold when grape juice was first produced on the market and I, myself was astonished at the very rapid increase in the sale of this summer beverage. With the introduction in this territory of Redwing Grape Juice I expected to see the sale climb faster and faster. Already I have added quite a number of new customers to my list, who have had trial bottles of this new brand and they are now ordering in case lots and they value its economy as well as its delicious quality. Here's the sizes of bottles I carry and the prices. I'll make a special price on case lots:

**The Flag Goes By.**
(Selected in view of the fact that Sunday, June 14 is Flag Day).

Along the street there comes
A blare of bugles, a ruffle of drums,
A flash of color beneath the sky;
Hats off!
The flag is passing by.

Blue and crimson and white it shines
Over the steel tipped, ordered lines
Hats off!
The colors before us fly;
But more than the flag is passing by

Sea fights and land fights, grim and and great,
Fought to make and save the state,
Weary marches and sinking ships,
Cheers of victory on dying lips.

Sign of a nation great and strong,
Toward her people from foreign wrong;
Pride and glory and honor all
Live in the colors to stand or fall
Hats off!
Along the street there comes
A blare of bugles, a ruffle of drums,
And loyal hearts are beating high;
Hats off!
The flag is passing by

## SUMMER TIME ALMOST HERE MERCURY ABOVE 90 DEGREES

**Afternoons Getting Warmer Each Day—Conditions Are Ideal For Wheat Harvest**

Wichita Falls is getting a taste of sure enough summer time this week Monday the mercury climbed to 90, Tuesday to 91, Wednesday to 92 and yesterday to 93 It is just as hot at six in the evening as it is at three the heat seeming to linger while the sun goes down The weather is ideal for the wheat harvest, but city folks are not appreciating it so much

Texans can get some comfort, however, from the fact that while the weather down here is warm, it is hot enough to cause prostrations and deaths in cities further north

## METHODS OF DEALING WITH SUFFRAGETTES DISCUSSED

**English Home Secretary Does Not Favor "Let Them Die" Policy — Admits He is Puzzled**

By Associated Press.

London, June 12—Reginald McKenna, the home secretary announced in the House of Commons Thursday that he hoped the government has obtained sufficient evidence to enable it to bring suit against the subscribers to the funds of the militant organization He added the further hope that the government would be able to make the subscribers liable to the full extent of the damage done by arson squads destroyers of mail and picture slashers

Mr McKenna pleaded in answer to bitter criticism that the government was faced with a situation without precedent The number of women actually engaged in committing crimes in connection with the militant movement is small he said, but sympathizers are numerous He admitted the crimes are increasing in seriousness

In discussing various suggestions for dealing with militants the home secretary said he believed the "let them die" policy would act only as a greater incentive to militancy and would in due course lead to a reaction in public opinion Deportation he considered impracticable As to treating the women as lunatics Mr McKenna said he could not ask Parliament to sanction an act defining people as lunatics who had not been medically certified as such.

The last proposition said Mr. McKenna was to give women the vote but he thought it could not be seriously considered as a remedy for existing conditions.

**Beautiful, Soft, Fluffy Hair An Aid To Beauty**

Who does not love a head of pretty hair? Some women think it is a gift of nature and envy their more fortunate sisters If your hair is not fluffy soft and lustrous, is falling out streaked, faded, brittle or full of dandruff and if the scalp itches, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots Hair is something like a plant—if neglected it soon withers and dies, while with a little attention it keeps fresh and beautiful

Parisian Sage is a scientific preparation that supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long thick, fluffy, soft and lustrous It removes dandruff with one application and quickly stops itching head and falling hair. Fooshee & Lynch or any druggist can supply you with Parisian Sage—it is inexpensive. You cannot be disappointed with this delightful and helpful hair tonic for the first few days' use will give the hair the beauty and charm of youth.

ED HOWARD, Mgr.

How do our candidates for the legislature stand on the fee system? Are they in favor of the present system, or in favor of paying salaries instead of fees to all officers of the county? The fee system is a live question, and the voters should have an expression from the legislative candidates as to how they stand.

The following is the wording that will appear on the head of the Democratic ballot to be voted in the July primaries:

For the submission by the Thirty-fourth Legislature of the State of Texas of a constitutional amendment prohibiting within this State the manufacture, sale, exchange and intrastate shipment of intoxicating liquor except for medicinal purposes.

Against the submission by the Thirty-fourth Legislature of the State of Texas of a constitutional amendment prohibiting within this State the manufacture, sale, exchange and intrastate shipment of intoxicating liquor except for medicinal and sacramental purposes.

In five years the taxable values of Wichita Falls have jumped from $3,687,240 to $8,261,660. That's very nice for an increase in wealth. But while this has been going on the population of both Wichita Falls and Wichita county have more than doubled, which is probably the best record for increase in wealth and population of any city or county in the State. This is written just as a reminder to those who are regretting they did not invest in Wichita Falls property four or five years ago. Property is cheaper right now than it will be next year, and in another five years the population of Wichita Falls will double again. That will mean a city of at least 30,000 population. There is every good reason to justify a prediction like that.

The editor of the Nocona News, evidently, has been a visitor to Wichita Falls recently, and when he returned home was inspired to write the following:

Indians named the city of Wichita Falls, and the rapids of Wichita River, a few miles above the city, furnished their inspiration.

Since its establishment in 1881, the city has witnessed a remarkable growth. A progressive citizenship has displaced the tribes of red men that once inhabited that section and blooded cattle have taken the place of the buffalo herds that at one time roamed the Wichita ranges. At one time Wichita Falls was the world's leading distributing center for ranch supplies and it still holds an important position in the livestock industry of the Lone Star state.

Wichita Falls now has a population estimated at 15,000, it has seven diverging railroad. Lake Wichita, from which the city gets its water supply, is one of the largest artificial lakes in the world and covers 3,000 acres. The lakes' greatest width is seven miles.

In addition to an abundant water supply, Wichita Falls is located in the heart of the richest oil, gas and coal fields in the Southwest. Nature in planning this city evidently intended that it should become a factor in the nation's manufacturing industry, and the plentiful water supply and inexhaustible stock of fuels have attracted many new factories to this city in recent years, together with its unexcelled transportation facilities.

As a rule women and girls who work in factories do so from force of circumstances. There are, of course, exceptions to the rule. But when they work and are competent to perform the tasks set before them, they should receive honest pay. If they are not competent, then their employer should not accept their time. Any girl or woman who works eight hours a day six days in the week should receive for her toil or labor at least a sufficient amount to pay her board at a fairly decent boarding house, and $3.50 per week is not sufficient for that in Wichita Falls or any other town of which the Times has knowledge. The writing of this was prompted by a visit of several working girls to the Times office yesterday and today. They were not asking for charity. They were just honest working girls appealing for a square deal. From the story they told us, they were justified in quitting their jobs, and will be foolish to go back to work for the same wages they were receiving. It's none of our affair. We don't want to be accused of meddling. We have troubles of our own. But when the time ever comes that the Times, in order to compete with others in its line, is forced to produce its product with labor for which it cannot pay at least a sufficient amount to provide the necessities of life to those who produce it, it will cease to do business at all.

# TROUBLE AT GLOVE FACTORY IS PROBED

### AT REQUEST OF GIRLS CHAMBER OF COMMERCE DIRECTORS CONSIDER MATTER

## BOTH SIDES GIVEN HEARING

### Girls Claim Wage Is Insufficient—Committee Is Appointed to Make Full Inquiry

The Chamber of Commerce this morning offered its good services in attempting to adjust the differences between the eleven girls who quit their machines at the Hilburn Bros., glove factory and the management of that institution. After hearing statements from the girls who quit and from Mr. Hilburn, the manager of the plant, the Chamber of Commerce appointed a committee of three comprising Messrs. Kemp, Noble and Hines to investigate more fully and see what could be done.

This committee was instructed to get scales of wages from factories engaged in similar work and to make whatever investigations might be necessary for a fuller understanding of the conditions. Mr. Hilburn offered to open his books to the committee and extend them all the information he could furnish.

**Special Meeting Held.**

A week or ten days will probably be required in the investigation. The girls who quit as well as the management of the plant will be invited to present their sides of the case in detail.

The special meeting of the board of directors called to hear the girls was well attended. The meeting was called upon the following petition:

"Mr. R. E. Huff, president of the Chamber of Commerce. Dear Sir: We, the undersigned employes of the Hilburn Manufacturing Company would respectfully ask that you call a meeting of the directors of the Chamber of Commerce as we want to present to them the subject of our treatment by the Hilburn Manufacturing Company, as we understand that that body has encouraged the location of the plant here especially to give employment to our people and we do not think that you understand that the standard of wages fixed is such that the employes cannot live upon them. We do not know that you can help us, but we would like to have the matter investigated as Mr. Hilburn refuses to discuss the matter with us.

"MRS. L. F. KAYS.
"LILLIAN BRYANT."

**Girls Are Represented.**

The petitioners were present when the meeting was called to order by President Huff. In making a statement of their grievances one of their number said that when they were paid the last time their checks were greatly reduced from the wages they had been receiving. She said that in her own case where she had been receiving from $12 to $14 for two weeks work, her last two weeks work had brought her only $9.40. Others who were paid smaller amounts declared they had found like reductions in their pay checks. They complained that even the most skilled workers in the shop could not earn more than 75 cents a day on the present rate of pay. They presented other grievances. Each of the girls was called upon to state the amount of her last pay check and the number of days work it represented; one said she received $8.95 for 13 days work, another $4.90 for 15 days work, a third $7 for 13 days work, one $1.25 for 6 days work, another $6.60 for 12 days work; another $9.40 for 13 days work; another $9.75 for 13 days work. One said she had worked six and a half days and that her pay check was $1.45.

**Mr. Hilburn Is Heard.**

After the girls had presented their side Mr. Hilburn was invited to make a statement. He said that in the beginning all the girls had been paid more than they earned under the piece rate as an encouragement. He said that whenever a girl advanced far enough where it was thought she could make more under the piece scale than she had been paid she was placed on the piece scale. He declared that the piece scale was as high as in other factories of a similar character and that girls in other factories were earning $1.50 per day and better. He said a bulletin had been posted in the factory setting forth the schedule of pay and that the girls had been told repeatedly that in the beginning they were being paid more wages than they earned under the piece scale. He answered the questions of the directors frankly and fully as he could.

He admitted that he had said he would not take the girls who had quit work back into his employ and declared that was his attitude now, but later modified this statement and indicated that he would take them back under conditions.

**Mr. Huff's Attitude.**

Mr. Huff apparently voiced the sentiment of the directors when he said: "If these girls can't be given wages that they can live on, I don't believe the people of Wichita Falls want to give support to the concern that employes them."

Mr. Kemp said: "If the girls can't make a living wage I don't believe we want them to go back to work."

Mr. Hilburn declared that with the proper application the girls could, when they [illegible] proficient, [illegible] wages paid in other factories and to show that in other factories girls were making $1.50 per day.

# LONDON NEWSPAPERS REFUSE TO SUPPRESS MILITANT NEWS

### Do Not Accept Suggestion of Home Secretary As To Method of Dealing With Suffs

By Associated Press.

London, June 12.—Home Secretary McKenna's appeal to the newspapers to suppress reports of outrages in order not to play into the militant's hands by advertising them, will fall on deaf ears. The London morning papers which comment editorially in a tone of intense dissatisfaction at the inadequacy of Mr. McKenna's proposal regarding the suppression of militancy point out the evils likely to follow an agreement among the newspapers to suppress news of any kind and argue further that such suppression would only serve to provoke the militants to offenses of still greater enormity.

The explosion of a bomb in Westminister Abbey has evoked the strongest editorial comment in which it is pointed out that there might have been loss of life.

# HUGO CLUB IS DROPPED FROM TEXAS OKLAHOMA CIRCUIT

The entrance of Hugo, Okla., into the Texas-Oklahoma League succeeding Wichita Falls did not prove as auspicious a change as was thought last year when the transfer was made. Hugo has been forced to surrender the franchise on account of poor support and the Texas-Oklahoma League circuit has been reduced to six clubs, Ardmore going out with Hugo. Texarkana gets the first honors, but will probably have to take part in a play-off series at the close of the last part of the season.

The dropping of Hugo puts a number of players well known in Wichita Falls out of positions, but it is expected that most of them will be picked up by other clubs. These include Nevitt, Brown, Workman, Nicholson and Kizziar.

The season will be finished with a six club circuit, including Texarkana, Paris, Denison, Sherman, Bonham and Durant.

## TOLLS BILL TO PRESIDENT

(Continued from Page 1)

serted that the exemption was in the nature of a subsidy, paid, not by imposing the tolls for certain American vessels upon other ships passing through the canal, but by the American taxpayers themselves in paying for the maintenance of the canal.

**Much Agitation Results.**

"The avoidance of possible friction," said the note, "has been one of the main objects of those methods of arbitration of which the United States has been for so long a foremost and consistent advocate"

Throughout the first year of President Wilson's administration there was a constant agitation fo rthe repeal of the exemption clause The president let it be known that he favored the repeal and on March 5, 1914 he delivered an address to Congress in joint session, earnestly urging the repeal The exemption, he said, was a mistaken economic policy and was "in plain contravention of the treaty."

"The large thing to do," said the president "is the only thing we can afford to do, a voluntary withdrawal from a position everywhere questioned and misunderstood We ought to reverse our action without raising the question whether we were right or wrong and so once more deserve our reputation for generosity and the redemption of every obligation without quibble or hesitation"

"I ask this of you in support of the foreign policy of the administration I shall not know how to deal with other matters of even greater delicacy and nearer consequence if you do not grant it to me in ungruding measure"

Speaker Clark, Majority Leader Underwood and other Democratic leaders in the House opposed the president's demand for the repeal, but after a vigorous legislative struggle the House, on March 31 passed the Sims repeal bill The measure then went to the Senate

In the Senate, the fight was prolonged and brought the leading debaters of that body to the front Party lines were largely eliminated. Senator Root and Senator Lodge were prominent among the Republicans who supported President Wilson's position in debate and with their votes, the fight against the repeal was led from the Democratic ranks with Senators O'Gorman and Chamberlain leading the opposition to the president

T J Taylor, Wiley Robertson and E Liepold have been appointed jury commissioners to draw the petit jurors for the present term of court and the grand jurors for the fall term of the district court These commissioners met this morning to draw jurors for seven weeks of the present term.

## TWO WAGON LOADS OF WHEAT ARRIVE

**FIRST IS FROM F. M. KELLER FARM, SECOND IS FROM HENRY MUSGRAVE**

## GOOD QUALITY IS INDICATED

**Tests 59½ Pounds and Graded Number 2—Local Quotation Eighty Cents a Bushel**

Each testing 59½ pounds to the bushel and grading No 2, two wagon loads of wheat from farms separated by a distance of probably eight or ten miles and the first wheat of the 1914 crop threshed and marketed in this section today indicates that in quality at least the crop this season will be well above the average

Not enough wheat had been threshed to give any indication as to the probable yield

**Bonus For First Load.**

The first wagon load of wheat reaching the city was from the farm of F M Keller southeast of town It was delivered to the J C Hunt Grain Company and brought eighty cents per bushel, this price representing a bonus paid for the first load The second load arrived shortly afternoon and was from the farm of Henry Musgrave

Both loads contained a number of wheat heads and it is believed if they had been well cleaned the wheat would have weighed between 60 and 61 pounds to the bushel. The quotation for wagon wheat in Wichita Falls today is 80 cents per bushel

**Is Dryer Than Expected.**

The two loads of wheat marketed here are much dryer than had been expected and indicate that there need be no delay in starting threshing operations generally

Reports today indicate that practically all wheat in the county will be in the shock by tomorrow night and threshing will be in full blast the early part of next week. Although men and teams are worn by the hard work of the past ten days they have stood the wheat cutting remarkably well and will start threshing in good shape

The Wichita Mill and Elevator Co, received its first wagon wheat here this afternoon. The first load was delivered by F M Keller and tested 60 pounds and was good No 2 wheat. Mr Keller received a dollar a bushel for this load The second load was delivered by Henry Musgrave. This tested 61 pounds and Mr Musgrave was paid 90 cents a bushel This price is above the market quotation, being in the nature of a bonus for the first wheat

By Associated Press

Chicago, June 12—Belief that after four days decline a reaction was due helped bring about a rally in wheat today The opening which was 1 8 off to 1-8 and 1 4 up was followed by a substantial advance all around Corn weakened on account of general rains where needed, most of the loss, however, was recovered when wheat turned strong After starting unchanged to 5-8 lower the market steadied close to last night's level Notwithstanding that the breaking of the drought had some bearish influence on oats the effect was not of a lasting sort Later selling out of a line held by a firm which suspended had considerable to do with causing a downturn in wheat The Lorimer bank troubles too, were taken advantage of by the bear side Close was steady Corn closed, strong Closing prices wheat, July 83 7-8; Sept 82¼; corn July 70 3-8; Sept 67 3-8; oats, July 39 3 4, Sept. 38 1 8.

## PENNINGTON'S POLICY AND PRICES PROMOTE PROSPERITY

The invariable policy of this store has always been to sell for cash and one price to all, and to give our customers the best for their money in merchandise and store service It is readily conceded by everyone that the store selling for cash only can greatly undersell the store that sells charge accounts, many of which they never collect. Every man, woman or child, whether rich or poor, that pay their money for merchandise, is entitled to buy them at the same price that his neighbor bought them. You will readily see that our unchangeable rule of quoting one price to all is the only really fair way. Our merchandise, our service and our low prices are our best adveritsements.

**TOTAL OF 565 CONVERTED TO DATE IN SERVICES BY DR. SCOVILLE**

## MEETINGS END SUNDAY NIGHT

**Forceful Sermon On "Sin" Is Delivered Thursday Night at Tent By Evangelist**

Eighty four converts in five days this week is the record at the Scoville tent meeting Eleven went forward Thursday night bringing the total for the meetings up to 565

At noon today the Scoville party held a meeting at the auto factory and tomorrow they will hold a meeting at the Denver shops Sunday morning Murphy's band will again lead the Sunday school from the church to the tent Sunday night the meetings will come to a close but on Monday night Dr Scoville will give an illustrated lecture on the Passion Play at the tent theatre

Rev Sandy and wife left today for the Missouri town where the next campaign is to start next week

**Speaks On "Sin"**

Dr. Scoville's address last night on "Sin was one of the most powerful and effective he has yet delivered here and in it he declared his belief that it was the business of the church to help actively in the material as well as the spiritual welfare of men

He said that there were two ways of dealing with in One was to deny its existence The other was to say, "I have sinned I want to quit, I want to get rid of it'

"You show me a man," he said, "who says he hasn't sinned and if he stops at my house all night I'll lock up the chicken coop' Again he said

"You show me a man in this crowd who says he hasn't sinned and I'll show you a man that lies'

He told about a man who told Sam Jones that if he would show him a perfect church he'd join it to which Jones answered, 'You find a perfect church, don't you join it, you'll spoil it."

**Can't Be Covered Up.**

Dr Scoville said that his purpose was not to try to cover up sin but to try to deal with it 'The Gospel of Christ," he said, 'wants to be put on two feet The Gospel of Christ has got to be preached to broken hearts with bleeding hands It's the churches business to help the laboring man I've felt for years that the church ought to have a hand in the material welfare of men."

He said that if the people would put more of the brotherly love of Christ into their lives and think of the sinner as the child of some other conditions in this world would be much better and many of our problems would disappear 'Let's get away from professional Christianity and into the real Chirstian life," he exhorted "Let's live the Christ life Every man and every woman ought to be a kind of a savior to work in the difficult and hard places in life'

**Let Every One Boost**

It is now almost absolutely sure that Texas is going to have an era of unparalleled prosperity this summer and fall, and especially Wichita County which has one of the largest wheat crops ever seen in this country. Money will soon be plentiful and times will be good.

Through all the hard years of crop failures Wichita Falls has been progressing nicely, growing faster than any city of similar size in the United States. Every month new industries and new enterprises are locating and being built in this city. With contracts already let and in sight the month of July will witness over a half million dollars of improvements under construction. With good crops and plenty of money in the country Wichita Falls wil go forward with leaps and bounds.

The rapid growth of Wichita Falls means that property values will double and treble. Now is the time to make some investments. Let us show you some bargains.

Scotch-Tone Peroxide Face Cream

Greaseless and absolutely pure. A mild skin bleach and skin beautifier. Every time the skin is washed and especially when Soap is used, the skin should be gently massaged with Scotch-Tone Peroxide Cream. Before going out the Cream should be applied as it preserves and protects the skin from the harmful effects of the sun, wind and dust. No matter how rough the weather it will protect the skin and prevent redness or chapping. It is a splendid dressing Cream for every occasion and should be applied not only to the face but to the neck, bust, and arms, then the powder adheres smoothly to the skin. When Face Powder is applied on Scotch-Tone Peroxide Cream, the skin never has that scaly look, but a natural velvety smoothness that can be obtained in no other way. Really, if we charged a dollar instead of 25 cents for this excellent Cream we could not give a better one.
